VINUTH A D

AI & ML Engineer | No-Code / Low-Code Developer | UI/UX Designer

+91 8277238663 | advinuth2001@gmail.com | linkedin.com/in/vinuth-a-d-b39ab026a

TECHNICAL SKILLS

AI & Machine Learning
Deep Learning, Natural Language Processing, Generative AI, Prompt Engineering

Programming
Python, C

No-Code / Low-Code & Automation
Make.com, Zapier, Airtable, Supabase

UI/UX Design
Figma, Prototyping, User-Centred Design

Data
Big Data Technologies (Hadoop, Spark – basics)

EDUCATION

B.E. in Artificial Intelligence & Machine Learning
Jawaharlal Nehru National College of Engineering, Shivamogga · Visvesvaraya Technological University, Karnataka
Aug 2026 | CGPA: 7.70

Diploma in Electrical & Electronics (E&E)
KSPUC, Karnataka
May 2022 | CGPA: 8.15

CERTIFICATIONS

- Anthropic courses (Claude)
- Nvidia workshop
- DL-driven crop health and loss analysis for PMFBY Scheme
- SkillHigh: AI & ML (Online Internship)
- Data Structures in C
- Data Structures & Algorithms Interview Questions

STRENGTHS

- Strong time management and ability to prioritise tasks effectively
- Good communication skills
- Strong analytical and problem-solving abilities

LANGUAGES

Kannada (Native)
Hindi (Fluent)
English (Fluent)

INTERESTS

Photography · Bike riding · Listening to music

PROFESSIONAL SUMMARY

AI & ML engineering graduate with **three internships** across deep learning, no-code/low-code product development, UI/UX design and workflow automation. I turn ideas into working products fast: design the interface in Figma, build the logic in Python or on no-code platforms, and automate the busywork with Make. My final-year AI project was **selected for a state-level poster exhibition**. Ready to join immediately and deliver from day one.

INTERNSHIP EXPERIENCE

No-Code / Low-Code Developer & UI/UX Design Intern
Findiag Innovation Private Limited, HSR Layout, Bengaluru | Apr 2026 – Sep 2026

- Built functional applications on no-code/low-code platforms, taking ideas from concept to working product without long development cycles.
- Designed clean, user-centred interfaces and interactive prototypes in Figma, from wireframe to polished screen.
- Automated repetitive business workflows with Make, connecting apps and data so manual steps run on their own.
- Worked across design, development and automation, owning features end to end.

Deep Learning Intern (Academic Internship)
Tekcogent Solutions Private Limited | Feb 2026 – May 2026

- Developed a deep learning-driven crop health and loss analytics solution for the Pradhan Mantri Fasal Bima Yojana (PMFBY) crop-insurance scheme.
- Applied deep learning to assess crop health and estimate crop loss, supporting faster, more objective insurance analysis.
- Gained hands-on experience applying AI to a real-world agriculture problem with national-scale impact.

AI & ML Intern (Online)
SkillHigh | 2025 · 3 months

- Completed an intensive AI & ML internship covering Python, machine learning and natural language processing.
- Built and delivered an AI chatbot for SkillHigh using Python, Streamlit and NLP libraries.

PROJECTS

Video-Based MCQ Generator
Final-year B.E. project | Jul – Dec 2025 | **Selected for state-level poster exhibition**

- Engineered an AI pipeline that transcribes video lectures and generates multiple-choice questions automatically.
- **Tech:** Python, Streamlit, Whisper, Google Gemini 2.5 Flash, Hugging Face Transformers, PyTorch.

Expense Tracker
Personal project

- Built an expense tracker that records daily spending, organises it by category and gives a clear view of where the money goes.
- Designed a simple, intuitive interface focused on fast entry and at-a-glance insight.

AI Chatbot for SkillHigh
Internship project | Sep – Oct 2025

- Developed a conversational AI chatbot that answers user queries through a clean Streamlit interface.
- **Tech:** Python, Streamlit, NumPy, Pandas, NLP libraries, JSON handling.

Object Detection in Railways using AI
Academic project, team of 4 | May – Jun 2024

- Collaborated in a four-member team to apply AI-based object detection to railway environments.
